

Wheat Pool Certificates

Apparently many farmers are under the impression that payment of Wheat Pool certificates will be made in the same manner as the first payments, that is sent directly, and on this supposition many men continue to hold their certificates. This however is an erroneous impression as the holders of these certificates are required to surrender them to the office of the Alberta Co-operative Wheat Producers Ltd., 226 Lougheed Bldg., Calgary before final payment will be made. So if you wish your cash sent in it.

MILLINERLY OPENING

Mrs. Peterson will open up a complete line of Fall Millinery at Huguet's store on Saturday, September 20th. All are invited to come and inspect stock.

More Prize Winners

Following is a continuation of the list of prize winners at the Didsbury Fair. Names given in order of merit:

Turkey Cock: W. J. Scheidt; Mrs. P. Radford.

Turkey Hen: Mrs. Arden Deadrick; Mrs. P. Radford.

Gander: Mrs. J. Frame, Olds; Mrs. P. Radford.

Goose: Mrs. J. Frame, Olds; Mrs. P. Radford.

Drake: O. Spivy; R. G. Harding, Olds.

Duck: R. G. Harding; W. E. Reider.

Plymouth Rock Barred Cock: M. Weber; Mrs. J. Frame, Olds.

Plymouth Rock Barred Hen: Wm. Lowrie; M. Weber.

Plymouth Rock Barred Cockerel: M. Weber; Wm. Lowrie.

Plymouth Rock Barred Pullet: Mrs. J. Frame; M. Weber.

Plymouth Rock A. O. V. Hen: H. A. Brennan 1st and 2nd.

Plymouth Rock A. O. V. Cockerel: H. A. Brennan 1st and 2nd.

Plymouth Rock A. O. V. Pullet: H. A. Brennan 1st and 2nd.

Buff Orpington Cock: R. G. Harding.

Buff Orpington Hen: R. G. Harding; W. J. Scheidt.

Buff Orpington Cockerel: W. J. Scheidt; R. G. Harding.

Buff Orpington Pullet: W. J. Scheidt; R. G. Harding.

Orpington A. O. V. Cock: J. J. Devins Carstairs.

Orpington A. O. V. Hen: J. J. Devins 1st and 2nd.

Orpington A. O. V. Pullet: J. J. Devins 1st and 2nd.

Wyandotte White Cock: Mrs. J. H. Johnson, Olds; Wm. Rupp.

Wyandotte White Hen: Wm. Rupp; Mrs. J. H. Johnson.

Wyandotte White Cockerel: Mrs. J. H. Johnson; Geo. Alden.

Wyandotte White Pullet: Mrs. J. H. Johnson; Geo. Alden.

Wyandotte A. O. V. Cock: C. E. Gibbs.

Wyandotte A. O. V. Hen: C. E. Gibbs.

Wyandotte A. O. V. Cockerel: C. E. Gibbs.

Wyandotte A. O. V. Pullet: C. E. Gibbs 1st and 2nd.

Rhode Island Red Cock: R. G. Harding.

Rhode Island Red Hen: Wm. Lowrie 1st and 2nd.

Rhode Island Red Cockerel: W. Lowrie.

Rhode Island Red Pullet: Wm. Lowrie 1st and 2nd.

Leghorn White Cock: R. G. Harding; Syd. Wright.

Leghorn White Hen: Mrs. J. Frame; Syd. Wright.

Leghorn White Cockerel: Mrs. J. Frame 1st and 2nd.

Leghorn White Pullet: Mrs. J. Frame 1st and 2nd.

Leghorn Brown Cock: Mrs. J. Frame 1st and 2nd.

Leghorn Brown Hen: Mrs. J. Frame 1st and 2nd.

Leghorn Brown Cockerel: Mrs. J. Frame.

Leghorn Brown Pullet: Mrs. J. Frame 1st and 2nd.

Minorca Black Cock: O. Spivy; R. G. Harding.

Minorca Black Hen: Mrs. J. Frame; R. G. Harding.

Minorca Black Cockerel: R. G. Harding; O. Spivy.

Minorca Black Pullet: R. G. Harding; O. Spivy.

Hamburg Silver Hen: Mrs. J. Frame 1st and 2nd.

Hamburg Silver Cockerel: Mrs. J. Frame 1st and 2nd.

Hamburg Silver Pullet: Mrs. J. Frame 1st and 2nd.

Ancona Hen: A. B. Frasch.

PETS

Paul Reschke 1st 2nd and 3rd.

Death of Popular Didsbury Lady

The citizens of Didsbury and district were greatly shocked on Tuesday morning when it was reported that Mrs. J. Boorman, wife of Mr. Boorman of the local telephone staff, had died on Monday night at her home in Lacombe.

Mrs. Boorman and three young children have been spending the summer at her home in Lacombe while Mr. Boorman who was in England just returned a couple of weeks before her sad death.

Amongst the people of the town she was very popular and took an active interest in several of the local women's organizations here and was a member of the Presbyterian church choir. She was also an active member of the local Chapter of the Order of the Eastern Star in which she held the office of Associate Conductress.

The funeral services were held at the home and church in Lacombe and the Lacombe Chapter of the O. E. S. had charge of the funeral which is a very impressive ceremony when put on by that body. The large number of flowers attested to the popularity of the deceased. Rev. W. McNutt assisted the Lacombe pastor in the service.

Among those present from Didsbury were the following members from St. Hilda's Chapter O. E. S.: W. M., Mrs. J. Phillipson, Mrs. T. Thompson, Mrs. W. Hillyard, Mrs. A. Fisher and Mr. Leadbetter, also from the telephone staff were Miss M. McIntyre, Miss B. McMow, Miss V. Helm, Mr. and Mrs. H. Remie and also Mr. Adshad.

The sincere sympathy of the community is extended to Mr. Boorman in this his great loss.

AROUND THE TOWN

A dance will be held in Clarence Rinehart's barn on Friday, September 26th.

Harold Tighe is reported as bringing the first load of this year's grain into town, delivering a load of rye to the N. Bawlf elevator.

Mr. J. A. McGhee has returned from his holidays spent in various parts of the country at Vancouver, Chilliwack and Edmonton.

Mr. W. Mueller who has been spending the summer months with Mr. and Mrs. J. Gilmore of Lethbridge arrived home this week.

The Misses Kathleen and Edith Osmond returned last week after spending a holiday with Mr. and Mrs. W. O. Zimmerman at High River.

Mr. J. H. Lowrie, manager of the Royal Bank of Canada here, and family have moved from their rooms over the bank to the brick house in the north end of town formerly occupied by Mr. A. Campbell.

Owing to an increase in the cost of pictures being shown Manager Sharp announces that commencing in October the price of adult admission will be 50 cents plus the tax. The price of children's tickets will remain the same as at present.

NOTICE OF REMOVAL

Mrs. Peterson will move her stock of millinery to Jake Huguet's store, where she will be prepared to meet all old customers and new, on and after September 20th.

To Insurance Beneficiaries

Hundreds of thousands of dollars are lost annually through the unwise investment or careless spending of monies received for insurance death claims and matured endowments. A Union Bank Savings Account is the proper place for the deposit of such monies. If Beneficiaries seek investments, our branch managers are always willing to help them with sound and conservative advice.

Thought For The Future

Sojourning at one of Western Canada's lake resorts for his first vacation in several years, a business man spent his time in lolling under the trees and watching the waves beat idly on the beach. After several strenuous years of unrelenting work this tired business man wanted nothing but complete rest of body and soul. And like a sensible being he went back to nature for it.

But as he lay under the trees and watched the water he soon became aware of great activity all about him. Squirrels and chipmunks ran and jumped among the trees and shrubs, while the water along shore and among the reeds was rippled with the swimming and diving of numerous muskrats. These interesting little animals were not holidaying. They were intensely busy. Idly watching them, the tired business man began to study them more closely and found they were one and all engaged in collecting and storing up food for the winter, and doing so systematically and with the greatest industry.

The man began to think. He realized that nature had endowed his little wood and water friends with a sure instinct which told them that although the sun shone and warm breezes were blowing, a time was surely coming when the trees would be bare of leaves, the ground covered under a mantle of snow, and the waters locked fast under a thick layer of ice when it would no longer be possible for Mr. and Mrs. Squirrel to collect food, or for Mr. Muskrat to build himself a house. So they were busy preparing for the future.

And the man, as he watched at first unconsciously, and then deliberately, began to compare his life and activities during the past few years with these little wild-life creatures. God and nature had endowed him with the same instincts of preparing for the future, but he had also been gifted with the power to think, to plan, to organize. He had been given a soul which would live on after his body was dead. The squirrels and muskrats were living an absolutely natural life and would pass on to their offspring their instincts of self-preservation and within a year their young would shift for themselves.

But what of the man? Looking back on his past year's hard work he realized that in many respects he lived an artificial life which did not tend towards maintaining and developing that natural physical fitness and strength of body enjoyed by the animals. He realized that his children could not begin to shift for themselves after the lapse of a single year. He was impressed with the fact that, unlike these little wild-life animals, he had to prepare not merely for a future consisting of a few winter months, but he had to look forward into the years and make preparations not only for his own old age but for his children until they had grown up and could care for themselves. His own health, the health of his children, their education and training for life, and the making of necessary provision for his family should accident or death overtake him, suddenly became vitally important and practical questions.

As a result of this at first idle, but later serious thinking, the man commenced to take stock of himself, of his business activities, of plans made for the future. Was he carrying sufficient life insurance to provide for his wife and to educate his children if death should suddenly overtake him? Had he protected himself and family sufficiently in the way of sick and accident insurance? Was he even showing the same foresight as the squirrels and muskrats in making ample preparation against any vicissitudes the future might entail?

Further, did a man's life consist of nothing more than business, making money, and spending it for pleasure? Surely, with all the keener instincts, mental power, and a deathless soul which man enjoyed over the animal creation, a great responsibility rested on him to do much more than the animals and merely plan for self-preservation. Surely a great responsibility rested on him to do something to better conditions in his home town, province and country. There were crippled children to be given a fair chance in life; there were widows and orphans for whom others had neglected, or through adverse circumstances had been unable to make, necessary provision; there were ex-soldiers and their families who had made great sacrifices for him and his country to whom he had to admit he owed a debt which he could never wholly discharge.

This man came to realize that his life, after all, was selfish and narrow, even thoughtless. He came to understand that the selfishness and narrowness was not intentional, but was the outcome of the thoughtlessness. And is it not true that this lack of taking thought lies at the bottom of most of the ills and sorrows from which the world of mankind suffers.

Forging Another Link

Start Work on Port Arthur to Winnipeg Auto Highway

Actual construction work on the Port Arthur-Winnipeg link of the trans-Canada auto highway was commenced recently. A party of men have left Port Arthur for Shababua under the direction of Road Engineer Mender, of the Ontario Northern Development Branch. Surveys for this road were completed some time ago. Mr. Mender also announces that the Port Arthur-Nipigon link of the highway is to be widened, and that the work on this link will be completed this year. Wooden bridges on the International highway between Port Arthur and Duluth are to be replaced by concrete structures. Seventy miles of new road construction was undertaken this summer by the Ontario Government in this district alone.

Man's Progress

Advance in Knowledge Results in Lower Mortality Rate

No slum family in Glasgow today is subject to so high a rate of infant mortality as were the families of Anglo-Saxon Kings. The contrast is very much more effective when it is kept within a narrower range of time. The dwellers in the worst slums of today run smaller risks of illness and premature death than well-to-do middle class folk did not so long ago. It is facts such as this that confound those who deny the reality of progress. Health and life are the most precious treasures of the State, and when the dark clouds of sickness are lifted and man's useful years are greatly prolonged, who can say with reason that improvement is a delusion and good government a snare?—London Daily Chronicle.

CHILDREN CRY FOR "CASTORIA"

Especially Prepared for Infants and Children of All Ages

German Predicts

Bicycle Aeroplanes

Results Achieved By Gliders Give Encouragement to Idea

Aeroplanes that are driven not by engines but by muscular power, in much the same way as a bicycle, will become a reality in the near future in the opinion of a German scientist. The discovery that aeroplanes could be driven by gasoline temporarily halted experiments in flying man-propelled machines, but the results achieved by gliders, he declares, give new encouragement to the idea. The planes will have to be built extremely light, although at the same time strong enough to stand the strain, and the legs will have to be the driving force as the hands will be necessary for guiding. The scientist pictures the machine as bi-plane, in the centre of which the flier sits, on a structure looking much like a bicycle, and drives a propeller in the rear.

Sore Foot Lumps Dissolved Away

Foot soreness, tender callouses, pinching corns, all such trouble quickly end when the Putnam method is employed. You take a special hot foot bath (fully described in each package), put on a few drops of the Extractor, and in a short time the trouble is ended. The name tells the story of Putnam's Painless Corn Extractor. 25c all dealers.

PUTNAM'S
Corn Extractor

Montreal's Rival Port

Every Thirty Minutes Sees One Vessel Arriving and Leaving New York

While practically everyone appreciates vaguely that New York harbor is a busy place, few have any clear idea how busy it really is. For actually one vessel arrives and one vessel departs almost every thirty minutes during business hours, day in and day out. The number of vessels entering New York in 1923 was thus more than 5,000 totalling in the neighborhood of 21,000,000 net tons. The duties collected in the city's port amounted to nearly \$225,000,000, or more than one-half of the United States total of about \$370,000,000. Such figures challenge the attention of almost everyone, whether directly interested or not in the growth and prosperity of U.S.A.'s greatest metropolis. —Montreal Herald.

WHEN FOOD FAILS

Defective Digestion is the Cause and Misery Follows

There are thousands of people who do not get the proper nourishment from the food they eat, because their digestion is defective. Food that lies undigested in the stomach is not merely wasted, but will ferment and poison your system. Flatulence and sour risings in the throat follow and unless you are careful you will become a chronic dyspeptic.

By tuning up the stomach to do the work nature intended, you will remove the cause of the trouble. Nothing will more promptly restore the digestive organs than good new blood. Stomach, nerves and glands all depend on the blood, and when it gets thin and watery they are at once weakened. It is because of their action in building up and enriching the blood that Dr. Williams' Pink Pills have proved successful in so many cases of indigestion where ordinary medicines have failed. The new rich blood quickly tones up the digestive organs; the appetite improves and you are able to eat with comfort and get full nourishment from your food.

You can get Dr. Williams' Pink Pills through any dealers in medicine, or by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A French criminal feigned dumbness and insanity for 15 years to avoid a prison sentence.

The Oil of the People.—Many oils have come and gone, but Dr. Thomas' Electric Oil continues to maintain its position and increase its sphere of usefulness each year. Its sterling qualities have brought it to the front and kept it there, and it can truly be called the oil of the people. Thousands have benefited by it and would use no other preparation.

No Oil in Philippines

After long prospecting for oil in the Philippines the Standard Oil Company has abandoned its workings. There has been a belief that oil would be found on the Bondog Peninsula of the island of Luzon, but three wells drilled to depths up to five thousand feet failed to show any.

Minard's Liniment for Sprains and Bruises

Western Canada Big Winner

World Standard For Butter Produced In the West

In a recent editorial the Winnipeg Tribune, writing on the progress of dairying in Western Canada stated: "Creamery products from the western prairies carried off just about 90 per cent. of all the prizes in these classes at the Canadian National Exhibition in Toronto. The Toronto Globe, commenting on the fact gives all credit to the strong organization of creameries built up partly through the efforts of the western provincial governments.

"There is much truth in its observation. Government control of the creamery business in the west, in the early stages more particularly, did result in a degree of standardization and quality production that was the admiration of visiting experts. As the business goes more and more into private control, of co-operative character, the standards are being maintained and in fact improved upon. Whenever western dairy products enter into competition with the products of other parts of Canada or the world at large they reflect credit upon the creameries that produced them.

"There is one factor the Globe overlooks. It is the special quality of western grasses. It is not altogether a result of high manufacturing standards and modern methods that western butter stands so high. There is a quality in the prairie grasses, a something nameless perhaps even to scientific minds, that gives an indefinable quality to the products of these grasses. That applies to beef cattle as well as to dairy products. It comes from the same combination of soil and climate that produces the finest hard wheat in the world.

"The creamery business in the west is steadily developing and advancing. When it attains the production possible to it, together with a higher degree of marketing skill and efficiency, it will become a world standard just as No. 1 Manitoba hard is and it will grow into a source of great income for the west."

Practical Social Service

Western Canada Social Welfare Congresses of the Social Service Council of Canada

The people of Western Canada are indeed fortunate in having in their midst this year, the series of Social Welfare Congresses of the Social Service Council of Canada, which are to be held in the western provinces, from October 13th to 21st inclusive. They are to be great gatherings, and inasmuch as they are the first of the kind to be held in the west, they will be the source of much inspiration and profit to all forward-looking Canadians who are working for the best that can be in practical social service.

Eight distinguished visiting speakers of national reputation representing both Protestant and Roman Catholic Churches will be heard at each place, besides local speakers of outstanding ability; and ample time is to be allowed for discussion following each address.

The subjects will include most of the vital social problems with which those who are working any field of social service are only too familiar. Some of these are: The Underprivileged Child; Religious and Social Welfare; The Community and Social Welfare; The Delinquent Boy; The Delinquent Girl; The Social Diseases; Habit-forming Drugs; The Problem of the Mentally Defective; International Relations, etc. Each subject will be treated by a specialist.

The plans and dates are as follows: Vancouver and Victoria (simultaneous), Oct. 13th and 14th; Calgary and Edmonton (simultaneous), Oct. 16th and 17th; Regina and Saskatoon (simultaneous), Oct. 20th and 21st; Winnipeg and Brandon (simultaneous), Oct. 23rd and 24th.

The Western Congresses will satisfy a real need in the west, providing as they do great forums within easy reach of all Western Canadians, for discussion of the social problems which Canada is facing today in common with many nations.

Describes Russia As Seething Slum

Squalor and Filth Seen Everywhere Says American Novelist

All Red Russia is a seething slum, according to Fannie Hurst, the American novelist, who arrived in Paris from Moscow. She described Sovietism as a great beast, half-stupid, half-mad, on its back in death agony.

Two months ago she was an avowed Marxist and an enthusiastic defender of the Communist revolution. She is still a sadder but wiser woman, and ready, according to her own statement, "to climb down from the soap box forever." In all the reign of terror only one man—Trotzky—seems to have the white light of inspiration, says Mrs. Hurst. She said: "In everyone's face you see nothing but fear, overwhelming fear. Leningrad and Moscow today seem as though people from Cherry and Allen Street, in New York, have moved from their slums to Park Avenue and continued to hang clothes from the front windows, put coal in the bathtubs and never bother to repair the streets.

"Russia is still chaos, with poverty among the bourgeois as well as the professional classes, and squalor and filth everywhere."

Mother Graves' Worm Exterminator will drive worms from the system without injury to the child, because its action, while fully effective, is mild.

Paris a City of Beards

"Paris was a city of beards," says a New Yorker back from the French capital, "of which there were 40 shapes, more or less, according to profession, from the cook type to the judge type. Every barber had one razor seldom used, and a battery of curling irons to put waves in the beards. Hair dye, brillantine and perfume were used under all self-respecting French silk hats."

W. N. U. 1542

CANADA AND U. S. TO FIGHT RUST MENACE

Winnipeg.—Co-operation of United States and Canadian expert agriculturists in the war on the rust menace is assured following a two-days' conference here. A committee on international co-operation was appointed, and a tentative programme drawn up. As a result of the meetings here, it is understood that a similar conference will be held either in Wisconsin or North Dakota in the near future.

Increased Federal Government aid and closer co-operation of provincial organizations in the campaign of rust eradication will be another important result of the meetings. For the prosecution of the campaign, Hon. Mr. Motherwell, Dominion Minister of Agriculture, expressed a hope that he would be able to get an appropriation of \$50,000 for the work, as against the \$25,000 set aside for it last year. Representatives of Western Canadian universities also pledged the support of their scientific staffs to the work, and Dr. H. M. Tory, Chairman of the Dominion Research Council, intimated that some of the funds of the council might be put at the disposal of the executive.

"Why cannot economic and fiscal questions of international importance be discussed around a table with equal frankness and the same amiable spirit as the mutual problem of rust control?" asked Hon. F. M. Black, Provincial Treasurer, speaking at a conference luncheon. He would be delighted at the whole-hearted co-operation of the Central States, and deplored the fact that fiscal conditions, of which those in the United States had frankly been very frank in a similar manner.

Prof. H. L. Bailey, of the University of North Dakota, suggested introducing nurseries for rust hosts, excepting barberry and buckthorn, of which the pernicious nature was already known.

Prof. Bokey was supported by several other speakers. It was contended that such nurseries would afford better opportunity to study the problem under field conditions and greenhouse conditions.

Has Not Replied To Canada's Offer

Proposed Trade Agreement With Australia Is Still Unsettled
Ottawa, Ont.—Hon. J. A. Robb, Acting Minister of Finance, said that there was no change in the position of Canada relating to a trade agreement with Australia.

Whether or not there was any change in the attitude of Australia, he could not say, merely remarking that the Australian Parliament was now in session.

"We are anxious to give Australia all the advantages we can in the Canadian market," he said, summing up the position of Canada.

Premier King's Western Tour
Ottawa, Ont.—The tentative date of the commencement of Premier King's western tour is set for Sept. 29, when he will leave Ottawa for Fort William. The first speech to be delivered will be at the head of the lakes, probably Oct. 1, and from there the Premier will proceed to Winnipeg, where he will speak, it is expected, Saturday.

Hindoo Prefer German Colleges
Hanover.—A conspicuous increase in the number of Hindoo students in German universities is reported since the end of the World War. "Anti-British feeling, said to exist among the young intellectuals, is given as the reason for their preference for German educational institutions.

Hurt?

Stop the pain with Minard's. It stops inflammation; soothes and heals.

MINARD'S
"KING OF PAIN"
LINIMENT

W. N. U. 1642

Put Ban On Sale Of Extracts To Indians

Edmonton.—The immense sale to Indians and half-breeds in the north of the province during the past few years of various extracts which contain a large percentage of alcohol, but which sale was not in the past illegal, is given by the Liquor Control Board as the underlying reason for the order-in-council recently passed which prohibits the future sale of these extracts, except through the Government vendors. The sale of these extracts has been a constant source of complaint by Indian Agents and the Provincial Police, and it is stated that thousands of dollars' worth of these extracts have been taken to the north for sale every season.

Radio Broadcasting In Russia

Now Permitted By Soviet Government Under Certain Restrictions

Moscow.—Radio broadcasting was introduced to the Russian public for the first time, when the council of people's commissars issued a decree permitting the manufacture and use under the supervision of the commissariat of posts and telegraphs of commercial and home-made receiving sets. The public is permitted to receive only general broadcasting matter sent out by Government stations, including informative speeches, reports, concerts, weather bulletins and time signals, but it is forbidden to intercept or to use for private purposes official Government matter or information intended for the press. It also is restricted from picking up matter disseminated by foreign wireless stations.

Business Improving In Ruhr

Restrictions Under Franco-Belgian Occupation Have Been Removed

Dortmund.—With the removal of the customs barrier and the other economic restrictions which had been imposed by the Franco-Belgian occupational authorities in the Ruhr area, a marked improvement in business activity has set in.

A resumption of normal railway traffic is viewed as one of the immediate benefits resulting from the abolition of the hitherto burdensome ordinances. The mines and smelters are looking forward to a steady supply of rolling stock of which there has been a chronic shortage due to the existing red tape.

Will Speed Construction

Saskatoon, Sask.—Construction of the C.P.R. Tisdale-Nipawin branch is to be expedited by employment of what is declared to be the largest and most efficient track-laying pioneer on the continent, which arrived in Tisdale recently. The machine is stated to be able to lay three miles of track a day.

Australian Citizens Drill

London.—The annual military training of the citizens' force at Liverpool Camp, Sydney, Australia, is being attended by 3,000 men, according to the Morning Post's Sydney correspondent. The men are undergoing a course of field work. Last year, while in training, they concentrated on musketry instruction.

Will Study Canadian Methods

London.—The British Ministry of Agriculture is sending H. Taylor, Deputy Controller of Horticulture, on a journey throughout Canada to study the Canadian methods of marketing fruit. The ministry recently established an apple packing station in Cambridgeshire.

Relief For Virgin Isles

Washington.—The American Red Cross has cabled \$25,000 to Captain Philip Williams, Governor of the Virgin Islands, which recently were stricken by a hurricane, for use in relief work. Captain Williams reported that between 300 and 400 families have lost their homes.

To Oust the Foreigner

Victoria, B.C.—That the imposition of the 100 per cent. luxury tax by the Japanese Government is a direct effort to oust the foreigner from Japan, was the opinion expressed by Stewart Fullerton, a journalist, who has returned from a trip of the Far East.

Nine streets have been opened for roller skating at New Haven, Conn.

Cancels Trip To Pole

ROALD AMUNDSEN

Arctic explorer, who filed a voluntary petition in bankruptcy, has definitely cancelled his projected aerial trip to the North Pole, and has requested that his estate be placed under a public receivership, so that he can get his financial difficulties straightened out in full view of the public. He considers himself solvent.

Chicago Slayers Sentenced

Get Life Imprisonment For Murder Of Bobbie Franks

Chicago.—Exactly 112 days from the afternoon they kidnapped Bobbie Franks from the street, killed him, threw acid on his face to destroy his features, and thrust his abused body into a swamp culvert, Nathan Leopold, Jr., and Richard Loeb, self-styled super-intellectuals and heirs to many millions, were packing up their prison belongings preparatory to the journey to the Northern Illinois penitentiary at Joliet, where, unless the pardon and parole board interferes, or they escape, they will remain for approximately 33 years.

They were sentenced to life imprisonment on the murder charge, and to 99 years on the kidnapping charge, and Judge Caverly stipulated that they were not to be eligible to parole. Attorneys differ on the number of years that must elapse before they can be paroled. Some hold they can regain their liberty in about 25 years, but Clarence Darrow, chief of counsel for the defense, argues that they must spend 33 years and some months in the penitentiary.

Rains Have Spoiled Crops In France

Quantity and Quality Have Both Been Seriously Affected

Paris.—The Temps states that the incessant rains of the past two months have seriously affected the yield of grain both as to the quantity and quality. The deficiency will have to be made good by purchases abroad, the Temps warns the people, and this will have the usual effect upon the French exchange.

It was estimated a few weeks ago, says the Temps, that the French purchases of foreign cereals the coming year would not exceed 10,000,000 quintals (a quintal is 220.46 pounds), but it is now certain that this estimate will be largely exceeded. The wheat trade itself believes that twice this quantity will have to be bought abroad.

Will Subscribe to German Loan

Paris.—The Mail says it understands that, in deference to the arguments made by Andrew W. Mellon, the American Secretary of the Treasury, in his recent talks with Premier Herriot, Finance Minister Clementel and M. Robineau, Governor of the Bank of France, France will subscribe 40,000,000 gold marks of the loan to Germany under the Dawes plan.

Prominent Personages Coming

Montreal.—The Duchess of Athol, M.P. for Kinross and Western Perth in the British House, and Mrs. Philip Snowden, wife of the Chancellor of the Exchequer, have accepted invitations to visit this fall, under the auspices of the National Council of Education.

Unemployment In Britain

London.—For the eighth successive week the unemployment returns for Great Britain showed an increase last week, namely, 13,662. In two months the increase in the number of unemployed has been 137,000 and the total now is 1,162,000.

Delegates At Geneva Are Striving For Peace

Geneva.—The Governments of thirteen countries have decided that it is more important to have their foreign ministers at Geneva following the discussions on obligatory arbitration, security and disarmament than to have them stay at home and conduct the general routine of foreign affairs. These thirteen ministers are sitting side by side, engaged in the hardest kind of committee work in stifling committee rooms, trying to lend a helping hand in the effort to put peace in Europe on a solid foundation. In addition to the foreign ministers there are nine ministers who hold other portfolios for the Governments of various countries and some thirty or forty statesmen, who have been premiers or foreign ministers during their careers.

Insurgents Fighting Soviets

Georgian Republic Demanding Recognition Of Their Independence

Constantinople.—The struggle between the insurgents and the Soviet forces in the Georgian Republic, is continuing fiercely according to the latest reports reaching here. The insurgents hold the principal trans-Caucasian railway, which runs through Tiflis to Baku.

Martial law has been proclaimed throughout the Caucasus and Soviet troops are being hurried to Georgia.

Georgia was a part of the old Russian Empire, but refused to recognize the Bolsheviks when the latter overthrew Kerensky. The Georgians formed a separate state, proclaiming their independence in May, 1918, and receiving their due recognition by the allies in 1921.

Later in 1921, a revolution occurred and a Soviet Government was set up. The Georgian insurgents are demanding recognition of their independence from the Soviet regime. Their president, who is now in Paris, has asked the intervention of the League of Nations to stop the bloodshed and has offered to submit the independence issue to arbitration.

Spanish Nobility Coming

Party Will Make Tour of Canada This Month

Montreal.—The Duke of Alba, 17th of that name and tenth Duke of Berwick in the British nobility; the Duchess of Alba, the Duke and Duchess De Penaranda, the Marquis of Viana, master of the horse to the crown of Spain, and the Marquis De Coquilla, personal friends of the King of Spain, with several friends, are about to visit Canada, it was learned here.

The party will travel in Canada over Canadian Pacific Railway lines. Following several weeks' stay in New York they will leave the United States on the 14th for Niagara Falls, thence they will proceed to Toronto, Banff, Lake Louise, Sicamous, Vancouver and Victoria, exploring the beauties of the Canadian Rockies enroute.

From Victoria they will go to Seattle and will then make an extended tour of the United States.

Approves Empire Conference

Bloemfontein, South Africa.—J. H. Thomas, British Colonial Secretary, said that while the invitation sent by the Imperial Government to the South African Government to participate in an Empire conference at London had not been accepted, he was glad to state that during a personal interview he had with Premier Hertzog, the latter declared his Government would accept the invitation and South Africa would be represented.

Saskatchewan Pool Wheat For U.S.

Regina, Sask.—Arrangements are being made to handle Saskatchewan pool wheat in the United States. It was announced following a meeting of the directors.

Particular reference, it was stated, is being paid to Scobie and Whittall, Montana, and Harry Marsh, Herschel, Sask., a member of the executive of the pool organization, is now south of the line carrying on negotiations.

German Prisoners Released

Duesseldorf.—Fifty-one Germans imprisoned by the French and Belgian authorities in the Ruhr have thus far been released under the amnesty clause of the London agreement.

READY TO SUBMIT ALL DISPUTES TO ARBITRATION

Geneva.—Great Britain stands by the League covenant, which provides for military and naval assistance by all the signatories to preserve peace. This declaration was made by Lord Parmoor, representing the British Government, after the disarmament commission debate on arbitration, security and disarmament.

In a statement to representatives of the press of the world, Lord Parmoor affirmed that Great Britain meant what she said when, through the lips of her Prime Minister, Ramsay MacDonald, she declared her readiness to submit all disputes to arbitration. He added that the words "all disputes" included those usually characterized as questions affecting vital interests and national honor.

Lord Parmoor qualified his statement by remarking that the terms "vital interests" and "national honor" were exceedingly vague, but went on to say that a way must be found to handle every possible cause of conflict between nations.

The British statesman concluded that, after all, the League covenant covered pretty nearly everything, and it was only necessary to clarify certain points, and perhaps generally strengthen the covenant.

Lord Parmoor's statement caused great pleasure among the French delegates, where it created the impression, as did his remarks before the commission, that when the time comes the British delegation will present detailed resolutions on arbitration, security and disarmament.

Must Be Agricultural Workers

Jews Entering Canada Will Be Subject To Immigration Restrictions

Ottawa.—Jewish refugees from Russia seeking entry into Canada will be subject to the same restrictions as now apply under the law to all immigrants, namely, that they must qualify as agricultural workers and give reasonable assurance that they intend to remain in the rural districts of Canada. This was the dictum of the Minister of Immigration, Hon. J. A. Robb, who received a delegation of steamship men which asked for a ruling on the status, under the Canadian immigration law, of Hebrew citizens of Russia now resident in Russia or the Near East. Many of these, it is understood, sought entry into Canada, but were unable to qualify as agricultural workers.

In declining to enlarge the field of immigration in this class, it is presumed that the immigration department has in mind the pledges given to the United States Government that everything will be done at Canadian ports to prevent the immigration of Europeans who seek to use Canada as a gateway to the United States as a means of evading the restrictions of that country's immigration law.

Pays Big Damages

Vancouver.—One of the biggest damage awards in the British Columbia court for many years has been settled by the unsuccessful defendant on the basis of paying 80 per cent. of the judgment and all costs. The defendant is the Comox Logging and Railway Company and the plaintiffs are 50 Meriville settlers who suffered loss of property, personal injuries and, in one case, a life, through a forest fire in June, 1922.

Ancient Church Wrecked

Palermo, Sicily.—Almost the entire roof of the Central Cupola of the huge seventeenth century Church of San Domenico has fallen in, destroying inside the church, the tribune in the nave. No one was injured.

FOR MISSIONARY WORK IN THE ORIENT

Party of Seventh Day Adventists who sailed for foreign fields in Japan and China on the Canadian Pacific S.S. Empress of Canada on August 14.
From left to right, back row—D. Millan and Mrs. Millan, Mrs. A. J. Werher and child, Mrs. Hilliard, F. Landis, and child, Mrs. Quimby and Professor Quimby. Front row—Mrs. E. F. Benson and Professor Benson, N. F. Brewer and Mrs. Brewer.

Afloat on the Big Water of Hiawatha.

Above are scenes of one of the Great Lakes steamships—the Assiniboia. The decks are as spacious as the cabins, and as clean as comfortable.

No traveller has seen Canada until he has crossed the Great Lakes. Missing them he misses not only the opportunity of tracing a great, historic, important and beautiful waterway. He also misses an experience which cannot be enjoyed in any other part of the world—that of going to sea in the centre of a continent. Above all, he misses nearly two days of delightfully cool voyaging, which, if he be travelling between the eastern provinces and the prairie region, provides a welcome break in the long and dusty journey.

The Great Lakes of Canada form the most remarkable groups of lakes in the world—a group remarkable for its extent, its importance, its historic interest and its beauty. With the St. Lawrence river, they provide Canada, in summer, with a stupendous inland waterway by which it is possible to reach the heart of the Dominion from the Atlantic ocean, a waterway which, since the beginning, has been inestimably important to the country's development. This vast expanse is haunted by the ghosts of many of the most famous makers of North America. As for their beauty—the loveliness of these pine-fringed inland seas is something which one feels rightly belongs in dreams.

The Canadian Pacific Railway, through its Great Lakes Steamship Service, enables those anxious to enjoy all this to gratify their desire. Three fine steamships, the "Assiniboia," "Keewatin" and "Manitoba," are maintained by the company in this service. Built on, and brought out from, the Clyde, they are miniature ocean liners.

Choice may be made of three sailings a week, two from Port McNicoll and one from Owen Sound, both on the Georgian Bay, a north-easterly off-shoot of Lake Huron. A train run of a few hours from Toronto by Canadian Pacific brings one to Port

McNicoll, within a few miles of the spot where Champlain and the Jesuits made their ill-fated treaty with the Hurons against the Iroquois three centuries ago.

The illusion of being at sea comes rapidly. Flocks of great gulls wheel overhead, fearlessly settling on rail and davit. The deck throbs beneath. Cool breezes drive out all unpleasant memories of heat, dust and smoke. Only two features of a life on the ocean wave are lacking—the tang of salt, for which the scent of pine is a worthy substitute and the unpleasant rolling, instead of which we have almost complete steadiness.

Throughout an afternoon one views an ever-changing panorama. Large islands bearing tiny houses, flit by. Small islands, canoes on their shallow beaches, give glimpses of white tents seen through trees, and the smoke of campfires. Night comes softly, gradually enveloping this picturesque medley of water, land and sky. The moon rises, casting a restless trail of silver across the lake, a trail left by the canoes of Radisson, Marquette, Etienne Brulé, Father Horgues, Hennepin, MacKenzie, Henry, a long procession of daring men, whose paddles still make music in the pages of Canada's thrilling history. Acquaintanceship begins in the dining-room and is carried on in the verandah café, the lounge, the smoking rooms and on the decks, with card parties, music, dancing and yarning on every conceivable subject.

In the morning one finds that Lake Huron has been left behind. The ship is now in the St. Mary's River, whose green banks, with their succession of summer cottages and bungalows, are gliding by. And so on. Past the Soo, through the "Big Water of Hiawatha," out of sight of land to the Twin Cities—a never-to-be forgotten trip.

Wanted, For Sale Ads.

WANTED:—To rent, equipped farm. Apply at Pioneer Office. 2p37

FOR SALE:—Lumber, all lengths and sizes, \$24 per thousand. No. 2 sheeting \$20. Terms cash. Wm. C. Wigley, Westerdale. 6p31

ORIGINAL MOUNTIES 'WHOOOP 'ER UP

Top—The old stage coach added a little color to the MacLeod celebration. Left—These two old squaws remembered their first sight of a Mounted Policeman. Right—Roxie, who lost a race and did not survive.

The photographs reproduced above were taken, not a century ago as may be supposed, but early in July of this year when the town of MacLeod, Alberta, celebrated its Jubilee with a stampede and other goings-on reminiscent of the days of horse-thieves and Indian raids, and the advent of the Royal North-West Mounted Police.

There is a very pretty little story told in connection with this celebration. Roxie, a beautiful race-horse owned by "Old Three Sons," a Black-foot Indian, although fourteen years old, was entered again to race. This horse was said to have never lost a race. Sleek and beautiful, she was the pride of the prairies, and as proud as she was beautiful. But her age was beginning to tell. Though she strained every muscle in her body, coaxed by "Old Three Sons" crouching on her back, having lost the lead she could not regain it, and for the first time in her racing life Roxie finished second. No more will she set the prairie turf flying under her feet. Having trotted back to the judges' stands, Roxie sank to the ground dead. She died, it is said, of a broken heart.

This was the only event which in any way tended to mar the jubilee. A rodeo was held, some seventeen thousand visitors from all over the continent helping the cowboys and cow-girls, and the Black-feet, Blood and Peigan Indians, to "whoop 'er up." Three thousand automobiles parked in Main street and out on the open prairie, and for three nights the old-time dance halls remained open for the benefit of those who could not find accommodation in the town or in one of the sleeping cars which crowded the Canadian Pacific yards.

The Indians, who once terrorised the country-side, were encamped in vari-colored teepees in the centre of the town. Here they took part in the old-time war dances under the eyes of the remaining members of the original squadron of the "Royal North-West." Cowboys and Indians had to have their say, but after all, the event was mainly in honor of those who remembered the Fall of 1874 and were numbered with the "Mounties" who established Fort MacLeod. Grizzled old men, most of them, but young at heart, they entered into the spirit of the days and were as active as any in "Whoopin' 'er up."

Why Peruvian Crude Makes Better Motor Oils

The oil found in Peru belongs to the general classification known as "Naphthene Base Oils." This distinguishes it from the "Asphalt Base Oils" of Mexico, the "Paraffine Base oils" of Pennsylvania, and the so-called "Semi-Base Oils of the Mid-Continent field."

When choosing a Crude Oil from which to manufacture Motor Oils, the first step is to find an answer to the question, "What are the characteristics of a good Motor Oil?" The answer to this question has a direct bearing on the choice of Crude Oil as well as on the manufacturing methods followed. We have answered this question as follows:

1. A good Motor Oil must lubricate.
2. A good Motor Oil must not form gummy carbon deposits on valves and pistons.
3. A good Motor Oil must operate in cold weather as well as in warm.
4. A good Motor Oil ought to give non-corrosive products of combustion.

We will now analyze the above points.

1. A good motor oil must lubricate. This statement may seem redundant and one may be inclined to say, "Oh, well, any oil will lubricate." This, unfortunately, is not the case. In order to lubricate properly, an oil must have two characteristics; first sufficient body to keep the lubricated surfaces apart; second, a low coefficient of friction. It has been found that oils produced from Peruvian Crude

possesses both these necessary properties in a very high degree.

2. A good motor oil must not form gummy carbon deposits on valves and pistons. This property is determined experimentally in the laboratory by what is known as Conradson Carbon Residue Test. This test consists in subjecting a weighted quantity of oil to a high temperature excluding air. The amount remaining on decomposition of the oil is known as carbon residue. Experiments have shown that Peruvian Crude gives motor oil in which this residue is a minimum.

3. A good motor oil must operate in cold weather as well as in warm. This means that the oil must have a low setting point or pour test. To determine this quality the oil is put into a test tube in which a thermometer is inserted. The tube is placed on an ice pack (salt and ice) the pour point being taken as the lowest temperature at which the oil will pour. Oils which contain Paraffine Wax are not suitable for use in cold weather. Peruvian Crude contains no Wax and is, therefore, eminently suitable for the manufacture of low cold test oils.

4. Oils which contain much sulphur on burning will give sulphur oxides. If these sulphur oxides find their way down into the crank case, where a certain amount of moisture is inevitably present, (a product of combustion of the fuel) sulphurous and sulphuric acids are formed, which will attack bearings, crank shafts, etc.

Peruvian Crude Oil is a low sulphur crude and therefore this danger is eliminated.

Although Peruvian Crude is brought to this country at great expense and many cheaper crudes could be obtained, the above four quality points were considered as unanswerable arguments for the manufacture of Polarines from Peruvian Crude.

ROGER BARRETT
Agent for Imperial Oils

NEW FALL GOODS

NEW FALL GOODS ARRIVING BY EVERY FREIGHT AND EXPRESS

NEW FLANNEL DRESSES

For ladies' and misses, sizes 16, 18, 20, 36 to 40. In plain and fancy flannels.... \$7.00 to \$12.00

GIRL'S SERGE SKIRTS

Navy pleated serge on white cotton waist. Sizes 8 to 14 years, each..... \$2.50

GIRL'S AND MISSES GYM BLOOMERS

Navy serge, pleated. Sizes 8 to 14, at \$3.50. Sizes 16, 18, 20, pair..... \$4.00

GIRL'S BEAVER HATS

For girls 6 to 14 years. The popular poke shape, drooping brim, black, brown and beaver.

GIRL'S FUR FELT HATS

For ages 8 to 14 years. Shades grey, new blue and nigger brown.

DRESS VELVET 27 IN. WIDE

In black, 27 in. wide, beautiful finish, per yd..... \$2.50

DRESS FLANNEL 54 IN. WIDE

In small check and flake designs, sand and grey ground per yd. \$3.25. Plain shades, poppy, paddy, tan, sand, 54 inches wide per yd. \$2.25

ALL WOOL TRICOTINE

For suits, dresses or skirts, 54 in. wide, fine even twill, per yd. \$3.50

NEVER FIRE FIRST

— BY —
JAMES FRENCH DORRANCE
Co-Author of "Get Your Man,"
"Glory Hides the Range," Etc.
(Serial Rights Arranged Through
F. D. Goodchild, Publishers,
Toronto)

(Continued)

"Looks like murder," he said, his eyes leaving the stolen uniform and focusing on the wound, the clean hole of a steel bullet in the right temple.

"It is murder—from ambush," the girl declared, her voice sharp with conviction.

But Seymour was not so sure. Without disturbing a convulsive death grip, he examined the revolver held in an outflung hand. It had been discharged once.

"Wasn't a complete ambush, anyway," he reasoned. "He had some hint of what was coming. Couldn't have drawn his gun after that bullet hit him. The way my ears read the reports, he fired just after the rifle spoke—probably a spasmodic pull on the trigger with no aim or hit. You know, Mounties are not supposed to fire first. The rule has killed a number of them."

"He was so brave—absolutely fearless," she murmured.

Seymour might have gone further in reconstructing the crime, but he checked observation on the subject lest she suspect his training.

"You knew him well, Miss—Miss—"

"Yes," he asked, partially to divert her mind from his professional deductions.

"I'm Ruth Duperow," she told him. "My uncle is a missionary here."

At once he remembered Moira's description of the colorful cousin who was keeping her father company. The contrast in type was remarkable.

"Yes," she went on. "I knew the sergeant quite well, and admitted—both my uncle and I admired his courage and uprightness."

"You said his name was—"

The girl's frankness did not desert her. "His real name was Russell Seymour but we knew him first as Bart Caswell. You see, he has been here for a month, studying the camp without anyone suspecting that he was not the mining expert he pretended he was. Not until the stage robbery did

WORKING GIRL'S EXPERIENCE

Read How She Found Help in Lydia E. Pinkham's Vegetable Compound

Arnprior, Ontario.—"I must write and tell you my experience with your medicine. I was working at the factory for three years and became so run-down that I used to take weak spells and would be at home at least one day each week. I was treated by the doctors for anemia, but it didn't seem to do me any good. I was told to take a rest, but was unable to, and kept on getting worse. I was troubled mostly with my periods. I would sometimes pass three months, and when it came it would last around two weeks, and I would have such pains at times in my right side that I could hardly walk. I am only 19 years of age and weigh 118 pounds now, and before taking the Vegetable Compound I was only 108 pounds. I was sickly for two years and some of my friends told me about Lydia E. Pinkham's Vegetable Compound, and when I had taken a bottle of it I felt a change. My mother has been taking it for a different ailment and has found it very satisfactory. I am willing to tell friends about the medicine and to answer letters asking about it."

— Miss HAZEL BERNOT, Box 700, Arnprior, Ontario.

A day out each week shows in the pay envelope. If you are troubled with some weakness, indicated by a run-down condition, tired feelings, pains and irregularity, let Lydia E. Pinkham's Vegetable Compound help you.

W. N. U. 1542

he disclose who he was and put on his uniform."

Seymour tried to hide a smile; the plan which the girl outlined as Bart Caswell's sounded so exactly like his own. When he turned back to her, his hand was stroking meditatively a clean shaven chin.

"Is there a coroner in Gold?" he asked.

"When a man was killed in a shaft cave-in on Sweet Marie Creek last week, a deputy acted before uncle read the service," was the girl's information, delivered with a frown. The reason for the contraction of brow appeared when she added "That deputy sheriff and coroner is a chump named Sam Hardley, and he didn't like Bart—I mean Mr. Seymour."

The real Seymour made mental note of this fragment without seeming to be impressed or more than casually interested.

"At that, Hardley will have to be notified, I suppose," Miss Duperow went on. "It's the law, isn't it?"

The sergeant nodded. "Something of the sort. But first I'm going to have a little look into the brush to see—what I can see. Mind waiting for a few minutes?"

"Don't risk it," cried the girl, taking a step toward him and laying an impulsive hand upon his sleeve. "Whoever murdered Bart may be lurking in the brush and wouldn't hesitate to take a shot at you. You don't know how desperate the—"

She broke off in sudden caution and finished inconsequently: "One killing is enough for to-day."

"A killing too many," he assured her, but swung into the saddle. "I'll take no unnecessary chances, and I'll not be gone long."

With the girl's disapproving look following him, he rode into the underbrush to the left of the trail. From that direction, he figured, had come the bullet. He had small hope of any encounter. With the cowardly attack neatly turned, he could conceive no reason why the perpetrator should hide around the scene of the crime. There was a chance, however, that he might pick up the trail of departure and learn its trend before the camp's amateur sleuths got busy and blotted out all signs.

On superficial survey, it seemed to the sergeant that the bogus officer had been riding out from town on some mission not entirely unsuspected by those against whom he meant to act. Near the trail forks, someone had lain in wait and killed him.

One shot had sufficed. Caswell's effort to answer undoubtedly had been futile. Then the slayer had slunk away in the brush. It seemed unlikely that he would go into town; entirely reasonable that he would return whence he had come. Seymour imagined that that would be the place for which the pretended Mountie was bound, were that ever determined. That the escape had been through the brush seemed likely, since nobody had passed them on the trail after the shooting.

Twenty yards into the brush, he set Kaw parallel with the trail that followed the River Cheena. The undergrowth was not too thick for riding if one watched for fallen trees and devil-club thickets. The ground, soft from recent spring rains, took tracks like putty. An Indian in moccasins might have passed without leaving a trail, but any booted white made him shed footprints like Crusoe's man Friday.

Soon, the officer picked up horse tracks so fresh as to be still sucking moisture from the muskeg. These angled toward the trail over which he had followed Miss Duperow. He traced them back to a clump of poplars. There he found evidence that a horse had been tied, evidently having been ridden from the main trail.

Footprints coming and going testified to a round trip in that direction. He examined these with care. In measuring these with a lead pencil, for lack of a tape, he noted the impress of a peculiar plate on the right sole. Either the wearer was slightly lame or possessed a gait that made it advisable to reinforce the outer edge of his boot.

The foot trail ended in a patch of salmonberry bushes, already in thick leaf and furnishing an ideal curtain. Groping about where the earth was beaten down, he soon discovered a copper cartridge case. His eyes sized this as having been thrown from a 20-30 Winchester, the same sort as that his saddle carried, one likely to be common in that region. Undoubtedly the dented case had held the steel nosed bullet that had ended the career of the crook who had dared impersonate a Mountie.

When Seymour stood erect, he saw he was head and shoulders above the bramble screen, in plain view and easy range of the tragedy scene. Doubtless in the very spot which he occupied, the murderer had stood erect to fling a taunt or shout a false warning at the approaching horseman; then he had shot before the other could act.

The circumstances of the crime reproduced to his own satisfaction, Seymour squandered a moment in studying his partner of the trail, his scrutiny unsuspected by the fair object thereof.

Ruth Duperow stood uncovered, her hat hanging from the horn of her saddle. The sun played upon the unmeshed waves of her silver-gold hair, bringing out unnumbered glints. She was taller than he had thought, almost as tall as her cousin, Moira. Her face was buried in hands that rested on the saddle seat, her poise slumped and heavy with grief.

"Poor youngling," mused the sergeant in deep sympathy. "She's taking it hard. These gentlemen crooks sure raise Ned with the ladies. Know-

ing that her uncle was a missionary, this Bart would not be at loss what trumps to lead. Reckon his blossoming out in my scurlet just topped the bill. Must have cut quite a figure in life, this Bart Caswell—or whatever his real name was. Handsome dog, too. No resemblance to me." He turned away with the hope that someone else would have the job of telling her the murdered man himself was a criminal.

Regaining his horse, Seymour mounted, minded to follow the foot-print trail for a way. This was child's play; Kaw attended to it, leaving the sergeant free to peer ahead. Meantime, his mind was busy revolving the surprising facts with which chance had equipped him.

He saw no need for mental doubt over the stage robbery. The uniform in which Bart was clad unquestionably was the dresser of the two he had enclosed in the bag and shipped to Gold. The "E" Division had a new tailor, a mistake had been made in stitching on the insignia and trace of the change remained on the sleeve. Even had there been other members of the Force in the district, he would have sworn to that uniform. He had not a doubt that the handsome deceiver of Cousin Ruth either had held up the stage single handed or had participated in the crime.

He could not agree with Ruth Duperow that the road agent, or agents, had mistaken the express vehicle for one of the passenger coaches in use on this difficult line. That did not stand the test of reason, any more than did a supposition that the robbery had been for the sake of obtaining the uniform of a mounted police officer. No one possibly could have known that such a rig was in transit. At best, the authority which any spurious wearer might command, must be of brief duration for the owner could be counted on to follow his clothes. The risk was not worth the fleeting advantage.

The sergeant did not have to argue himself into a conviction that he must seek elsewhere for the purpose of the holdup. Some other shipment—just what, he meant to find out—that was coveted and worth taking chances to secure must have been expected. He believed that, in examining his loot, the robber-murderer had come upon the uniform and had decided to use it in some other bold stroke without the law.

The sergeant could not withhold admiration for the daring which the man who called himself Caswell had shown in his last hours of life. To put on the trusted and feared uniform, to declare himself the representative of Dominion authority and to undertake the solution of his own crime was a coup as clever and novel as it was impudent. Had the culprit stopped there, he might have made a clean get-away with whatever else of loot the stage carried. Seymour concluded that the prize which had made him resort to murder must be of great value. He did not overlook the possibility that Bart might have been slain by a pal dissatisfied with the division of the spoils. But, in view of hints dropped by Ruth, he was inclined to believe that this morning's slaying had no connection with the B. C. X. crime. The girl, after all, was his best source of information.

Just as he was about to turn back and question her further, the horse tracks he was following broke from the bush into the switchback trail and were lost. At once he swung Kaw

around for the return canter. Shortly he overtook his own pack cayuse faithfully plodding in pursuit, and took the animal under halter, that it might not become confused at the crossroads.

At the turn, he saw that a group of men had gathered about the lifeless figure of Bart. A freight wagon drawn by three yoke of oxen had been stopped near by and reins dropped on four or five saddle horses. But he looked in vain for his companion of chance. Ruth Duperow and her mount were gone.

CHAPTER XV. Under Suspicion

None of the usual greetings of the Northern trail were offered Seymour as he rode up to the group. Instead, he found himself the target for a battery of frowning glances. The men presented a stolid front of frigid scrutiny. The probability flashed upon him that, as the first stranger to reach the scene, he was under suspicion in connection with the crime.

The sergeant stopped his horse and was about to dismount when there was a movement among the men. A short, stout man, from whose ample belt dangled a small cannon of a revolver, waddled forth to stand before him.

"What's happened?" asked Seymour quickly deciding to say nothing of his previous visit.

"That's what we're goin' to find out," said the fat man in that shrill small voice with which humans of undue girth often are afflicted. "Who're you?"

(To be continued)

Reforming the Calendar

Scheme Advocated By Winnipeg Man Several Years Ago

The thirteen month calendar scheme recently passed in a resolution by the American Meteorological Society, was advocated by J. W. Harris, a pioneer Winnipegger several years ago.

The calendar reform scheme, as outlined by Mr. Harris, appeared in his book, "The Art of Rapid Computation and Science of Numbers," published in 1919.

The "year of 13 months of four weeks each, with one extra day," is fully explained by Mr. Harris under the general head of "Chronology or Time Computation."

"The 13-month system, with 28 days to each month," says Mr. Harris, "has many points in its favor, and much to commend its adoption for universal use at the earliest possible date. This arrangement of 13 months of four weeks each, with seven days to the week, would leave an extra day in each year, which could be made to occupy a place as a holiday to close the old year, or to be called New Year's Day and utilized as a holiday to start the year. It would thus cause no disarrangement concerning the names of the days of the week, nor with business transactions generally. The added day for leap year could in like manner be sandwiched between Saturday at the end of the 26th week and the following Monday as an extra holiday to be called "Leap Year Day."

As a name would have to be given to the added or thirteenth month, Mr. Harris suggests that the misleading old names of the months be done away with and they be called the "first," "second," "third," and so on to "thirteenth" month.

Complete Unique Bible

A unique Bible has just been completed by the Bible Society of Maine, after nearly one year's work. The entire book is written by hand, more than 1,600 individuals having esent in a page of copy, while a number of others made maps and illustrations. A millionaire and a pauper, a merchant and a housewife, a public man and a life prisoner were among those who contributed their quota, while persons of all religious faith are included. The book, it is said, will be used to further the aims and objects of the society, which was founded nearly a century and a quarter ago.

English sailors once believed that a whale crossing before their prow was an ill-luck omen.

Roman Knight With Sword and Buckler

Interesting Discovery Is Made By a Peasant in Bulgaria

A peasant plowing near a small village in Bulgaria, turned up one of the most interesting archeological finds made in recent years. When the plow struck an obstruction, the peasant found it was a slab of marble. Lifting this a marble tomb was disclosed and within lay a suit of bronze armor of a Roman knight, together with shield, sword, spear and several utensils, including an exquisite vase.

Director Velkoff, of the National Museum, and Mr. Popoff, an expert on Greek antiquities, estimate that the find dates back to the pre-Alexandrine period. They surmise that he may have been a dweller of a Hellenic colony on the Black Sea coast.

On the helmet, well preserved and of a high order of workmanship, were the figures of Apollo, Pallas, Athene, Poseidon, Minerva and Mars. One ear-piece found bore the figure of Zeus with the trident. The other ear-piece was lacking.

The helmet was silvered and some of the white metal still adhered. The human figure that once bore the helmet and carried the weapons was entirely absent, except in the form of ashes in small amount.

"The knight who bore the armor was evidently a high personage," said Director Velkoff. "Therefore, after his body had been deposited in the grave it was burned, an early instance of cremation."

WHEN BABY IS ILL

When baby is ill; when he cries a great deal and no amount of attention or petting makes him happy. Baby's Own Tablets should be given him without delay. The Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach and thus drive out constipation and indigestion; break up colds and simple fevers and make teething easy. They are absolutely guaranteed to be free from opiates and narcotics and can be given to even the new-born babe with perfect safety and always with beneficial results. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Eat Less To Be Thin

A reader writes: "Kindly give regime for quick thinning, as you have for quick fattening."

Reply: Easy. Quit eating. If that's too rapid, eat less. If you want to feel comfortable as you thin, eat nothing but bulky vegetables, but eat plenty of them. Cabbage, cauliflower, lettuce, spinach and all other greens; tomatoes, radishes, turnips, beets, squash, pumpkin and string beans are on the list of "bulky" vegetables.—San Francisco Bulletin.

Frozen meat first became known to the civilized world when a party of Eskimos brought frozen game in alight cases to Harwick, England, in January, 1816.

NO ALGERNON

Enquirer.—Poolrooms have no direct connection with the farmers' pools. Yes, in each there is a chance to win, but neither is considered gambling. Both are games of skill. Your query as to who has lost if the farmers have won. We have no information. A farmers' pool has no connection with irrigation, nor with dry farming. In fact it has no connection with farming. The significance is that the farmer pours in his produce. Yes, you might call it the farmers' ditch, if you wish to.—Ex.

AROUND THE TOWN

The winner of the free pair of combination Headlight overalls given to the farmer bringing in the first load of wheat this year was Mr. J. C. Neufeld. Mr. Neufeld brought in a load of wheat on Wednesday grading No. 1 hard.

Mr. J. R. Clark who has been acting as relieving teller in the Union Bank here for some time returned to Three Hills on the 12th. The position of Accountant has been filled by Mr. A. A. Chapman who was transferred from the Alx Alta. branch.

Latest news of business changes are that Mr. H. Hawkes has purchased the vacant lot between Chambers Drug Store and the new post office site, the old Western Mutual Offices. Mr. Hawkes intends to build on this lot and will have a fine business location.

It is with surprise and congratulations that a former resident of this town is again seen on the Streets. Mr. Macdonald. Mr. Macdonald suffered a severe stroke some months ago and was taken to a sanitarium in the south where his recovery was doubtful. He is now getting around with the use of a cane and says except for a slight numbness in one arm and leg is feeling fine and his rheumatism which used to bother him so much has disappeared.

OBITUARY

FINLAY

Wm. Finlay was born near Belfast, Ireland, on May 17, 1887. He received his education in the Public and High Schools of Belfast. In 1904 he came to Alberta, Canada, with his parents who settled at Westcott, at which place, under the Baptist people, Will was converted in August 1909. Going to Beulah Mission, Edmonton, in July 1912, he labored faithfully a Men's Missionary for a number of years. While thus engaged, Bro. C. T. Homuth, then African Missionary, now pastor at Didsbury being home on furlough, visited the Beulah Mission in 1915, as a result of which Bro. Finlay received his call to Africa. Having united with the M. B. C. Church in July 1916, and graduating from the Edmonton Bible Institute in 1917, he was given work under the Canadian Northwest Conference during the summer of the same year.

On February 12th, 1918, Bro. Finlay was united in marriage to Florence Adam, of Didsbury, Alta. Together they left for Africa in November 1918. They buried their first baby, Wm. Arnold, at Jebba, Africa, in March 1919. Their second baby, Ruth Marion, was born at Jebba, on April 17th, 1921. During the year 1922, Mr. and Mrs. and Mrs. Finlay were home on furlough. At a Quarterly Service conducted in the Didsbury Church, May 21, 1922, Mr. Finlay was ordained by Rev. A. Traub. In January 1923, Bro. Finlay, accompanied by his sister Maggie, returned to Africa leaving Mrs. Finlay and little Ruth in Alberta where Bessie Wilda was born in March 1923, at Edmonton. Having left her two little children in her father's home, Mrs. Finlay returned to Africa to join her husband in the Fall of 1923.

Mr. Finlay passed peacefully away at Jebba, Nigeria, W. Africa, on September 5th, 1924, leaving to mourn his loss, a loving wife and two little daughters, two brothers, five sisters and a large circle of friends who lovingly share this heavement and sympathetically enter this deep valley of affliction with Mrs. Finlay and pray that God's grace may sustain and uphold her in these trying days.
